# Your interior design is complete with window coverings by bece

Window coverings set the tone in your home, filtering sunlight and providing privacy. This inspiration book, focusing on bece transitional shades, can help you make the right choice for your windows. Every home and each person is unique, so our transitional shades give you so many options, each one an opportunity to showcase your style. What will you choose?

WE HOPE THESE PHOTOS WILL INSPIRE YOU.

# Transitional shades

Transitional shades perfectly adjust natural light with transitional layers of fabric, alternating between sheer and semi-opaque (or opaque) horizontal fabric vanes. The sheer and non-sheer vanes slide past each other, creating many levels of light-filtering options.

5

## **Transitional shades combine atmosphere and functionality**

- An extensive range of 68 beautiful fabrics in many shades of white, beige, brown, gray, taupe and black.
- Choose between two different vane heights.
- Transitional shades look spectacular on larger windows.
- Also available in room darkening fabrics, ideal for bedrooms.

## **Endless variation**

Transitional shades offer many options to adjust your light and view. The three basic settings are:

- open, for a clear view;
- half open, to filter light;
- closed, for maximum light blocking and privacy.

# Bedroom

Your bedroom is your oasis of comfort. Transitional shades allow you to determine the exactly right amount of light. Like it dark? Choose a room darkening fabric, and when the shade is fully down, you will have a good night's sleep. Light filtering fabrics block direct rays, but still allow a glow of light, while providing total privacy.

## **Room darkening design**

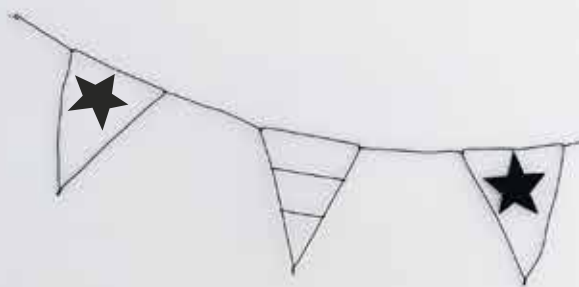

If you choose a room darkening fabric, your transitional shade comes with our room darkening system. This system incorporates a specialized bottom bar, which presses the two layers of fabric tightly together for maximum room darkening. This bottom bar has no additional surcharge. Fabrics are available in shades of gray, beige, brown and black.

# Living room

Does your living room have large windows or French doors? Nothing is as spectacular as large windows showcasing a great view, and welcoming light into your home.

However, bright sunlight or a lack of privacy is not always what you need. Keep your privacy and determine the right amount of light with bece® transitional shades. Best of all, transitional shades roll completely up and out of the way – leaving nothing but your view. With our extra-large vanes, you can proportionally cover a large space.

## **The art of 'less is more'**

Create peace and simplicity in your living room by leaving items out. Accessories that you do add should have basic shapes and be made of natural materials. Make sure the colors compliment the rest of your interior.

# Motorization

Motorized window coverings are easy-to-use, safe and help with energy efficiency. Transitional shades are available with motorized operation.

## Easy-to-use

Motorized window decoration offers the comfort of operating several window coverings with the push of a button. These are perfect for hard to reach windows and multiple windows.

## Safety

Motorized transitional shades have no lift cords, the safest operation to protect the little ones in your home. And, by adding the “smart” control of a Domotica-system, you can operate your window coverings remotely from anywhere. So, even when you’re away, it will appear your home is occupied.

## Energy Efficient

Motorized operation enables you to manage the climate in your home more efficiently. A sun- and temperature sensor prevents the living room or bedroom from getting too hot, since the shades will go down when the temperature reaches a pre-determined value. Put the insulating properties of your window coverings to work.

### MOTORIZED SHADES AT A GLANCE:

- Operate one or more transitional shades with the push of a button.
- Great for hard to reach windows.
- Increases safety when you are not at home.
- No hazardous operation cords.
- Operate your transitional shade using a tablet, smartphone or PC with a domotica-system that is compatible with our shades.

Your motorized transitional shade is equipped with the electric system from the leading brand Somfy®.

# Kitchen

The kitchen is the heart of the home: family breakfast, homework station, gathering at a party. Enjoy your time there with transitional shades in a light filtering fabric.

**Keep it bright and lose the glare!**

Grease and dirt are no problem for our transitional shades. Practical and easy-to-clean.

A modern kitchen interior featuring a grey countertop, light-colored wooden cabinets, and a window with horizontal blinds. The blinds are partially open, allowing natural light to filter through. A white bar stool is positioned near the window. The overall aesthetic is clean and contemporary.

“ ALL OUR TRANSITIONAL SHADE FABRICS ARE ALSO AVAILABLE AS ROLLER BLINDS. IDEAL IF YOU WANT TO CREATE A "FLOW". ”

# Home office

Working from home has its benefits; no daily commute, a quiet work space, flexibility. Having a separate space for a home office is ideal. Keep your personal- and career life separate, so when you close the door of your home office you literally leave your work day. Keep the glare out of your workspace with bece's transitional shades. Our sliding vanes give you the ability to quickly adjust to any light condition, and look good doing it!
